- Telehealth visits are acceptable to address the care opportunity

Tips and Best Practices to Help Close This Care Opportunity

This measure focuses on follow-up treatment with a primary care provider or a substance use specialist.

- See patients within 7 days and bill with a substance use diagnosis.
- If a situation arises where a patient is unable to be seen within 7 days, then they need to have an appointment within 30 days of discharge.
- Encourage the use of telehealth appointments when appropriate.
- The Mental Health Services Administration supports following the Screening, Brief Intervention and Referral to Treatment (SBIRT) guideline[1] at **samhsa.gov/sbirt.**
- If you are not going to treat the patient yourself, you will need to refer your patient to a substance use specialist. To request coordination of care, please call the number on the back of the patient's health plan ID card or search **liveandworkwell.com.**
- Sharing member demographic data is critical to understanding the cultural, linguistic and social needs of those we serve and decreasing health inequities across the care continuum. This data can include, but is not limited to, race, ethnicity, language, sexual orientation, gender identity, pronouns, sex assigned at birth and disability status.
  - As part of UnitedHealthcare's clinical you to include this demographic data with any structured data file or CCD. Your information is confidential. UnitedHealthcare will keep personally identifiable information confidential and consent.

- **Available Resources:**
  - Alcohol and Drug Use Screening Tools: **providerexpress.com** > Clinical Resources > Behavioral Health Toolkits for Medical Providers
  - Patient Education: **liveandworkwell.com** > Browse as a guest with company access code > Use access code "clinician" > Explore and Learn
- SUD can be accepted as supplemental data. Please contact your UnitedHealthcare representative to discuss clinical data exchange opportunities.
